

Sneha Khatiwada

UI/UX Designer | UX Researcher

snehakhatiwadap@gmail.com | 7745192136 | Los Angeles, CA | behance.net/snehaha_k | linkedin.com/snehaha-k

PROFILE

MS in Computer Science candidate with experience conducting user research, usability testing, wireframing, and prototyping to create user-centered digital products. Skilled at translating user insights into actionable design solutions through interviews, research synthesis, and iterative design. Experienced collaborating with cross-functional teams to align user needs, business goals, and technical requirements.

EDUCATION

Master of Science in Computer Science, *Clark University* 08/2024 – 05/2026

PROFESSIONAL EXPERIENCE

Value Aligners, *UI/UX Design & Research Intern* 11/2025 – 03/2026 | Remote

- Led UX design efforts for key mobile application features from concept through prototype.
- Conducted user feedback sessions and iterative testing to identify usability issues and improve user satisfaction.
- Collaborated closely with developers and stakeholders to translate user needs into intuitive mobile experiences.
- Created wireframes, user flows, and interactive prototypes to support product decision-making.
- Synthesized user feedback into actionable design recommendations.

Clark University, *Campus Ambassador* 08/2025 – 05/2026 | Worcester, MA

- Designed digital and print communication materials to improve student engagement and information accessibility.
- Gathered feedback from students and campus stakeholders to optimize event communication and user experiences.
- Collaborated with university departments to support orientation and community-building initiatives.

Nakshatra Techno Hub, *UI/UX Designer* 05/2024 – 07/2024 | Kathmandu, Nepal

- Conducted user research and stakeholder interviews to define project requirements and identify user pain points.
- Developed personas, user journeys, wireframes, and prototypes to guide product development.
- Facilitated iterative design reviews and incorporated user feedback into design improvements.
- Partnered with developers to ensure successful implementation of user-centered solutions.

Aeon Soft Solution Technology, *UI/UX Designer* 05/2023 – 11/2023 | Kathmandu, Nepal

- Conducted usability testing and analyzed participant feedback to improve educational platform experiences.
- Created wireframes, interactive prototypes, and user flows based on research findings.
- Collaborated with developers and stakeholders to align product functionality with user needs.
- Presented design recommendations supported by user insights and usability findings.

PROJECTS

LigLog, *Personal Productivity & Wellness Mobile Application* 01/2026 – 05/2026

- Designed the end-to-end UX for LigLog, a mobile application featuring task management, gratitude journaling, expense tracking, and mood analysis.
- Conducted user research and created user flows, wireframes, and interactive prototypes to deliver an intuitive and user-centered experience.
- Collaborated with cross-functional team members and refined designs through usability testing and iterative feedback.

Clarkie, *AI assistant for Clark University* 03/2025 – 03/2025

- Designed and evaluated a conversational AI experience to help students access academic resources and campus information.
- Conducted user interviews and usability evaluations to identify opportunities for improving navigation and information discovery.
- Developed user flows, prototypes, and interaction designs informed by user feedback.

Lian, *Business Directory* 08/2024 – 12/2024

- Researched user behaviors and business discovery workflows to inform platform structure and navigation.
- Designed search, category browsing, and map-based experiences using wireframes and interactive prototypes.
- Created information architecture and user journeys to improve findability and usability.
